lucipc@gmail.com

Hi I'm Lucci, a front end developer and designer from Southern California with over 2 years of experience in web development. I'm passionate about coding clean, functional and elegant solutions in the form of websites and web apps. Recently, I've become more proficient at building and testing responsive designs that work beautifully on mobile devices and are cross-browser compatible.

TECHNICAL SKILLS

Strong: HTML, CSS, Sass, Javascript, jQuery, Wordpress, Photoshop

Knowledgeable: Git, npm, Bootstrap, JSON

EXPERIENCE

Jan 2017 - Present: Front End Web Developer & Graphic Designer, In The Mix

- Designed consistent and engaging YouTube thumbnails using Photoshop and Lightroom
- Designed and developed website from scratch with HTML, Sass, npm, PHP, jQuery

PROJECTS

Luccipaula.github.io: my personal portfolio page

- GitHub Page designed/built from scratch with HTML, Sass, npm and jQuery

Christieaudio.com: Audio engineer based in Australia

- Freelancer portfolio site created with a heavily customized Wordpress theme, custom jQuery audio player and branding created in Photoshop

Twitch Status Viewer: check/search for your favorite streamers' online or offline status

- Web app developed with HTML, CSS Grid, jQuery, JSON (Twitch API)

Local Weather App: view weather in your location/search for weather in other locations

- Web app developed with Bootstrap, jQuery, JSON (Google Maps API, Dark Sky API)

EDUCATION

Aug 2018: "Advanced CSS and Sass: Flexbox, Grid, Animations and More" Course, Udemy

Apr 2017 - Present: Responsive Web Design, Javascript Algorithms And Data Structures, Front End Libraries Curricula, freeCodeCamp

Sep 2014 - May 2016: Various online Computer Programming and Business courses, Santa Monica College
