Hi I'm Lucci, a front end developer and artist from Southern California with over 2 years of experience in web development. I'm passionate about coding clean, functional and elegant solutions in the form of websites. Recently, I've become more proficient at building and testing responsive designs that work beautifully on mobile devices and are cross-browser compatible.

TECHNICAL SKILLS

Strong: HTML5, CSS3, Sass, Javascript, jQuery, Wordpress, Photoshop
Knowledgeable: Git, npm, Bootstrap, JSON

EXPERIENCE

Michaelwynneaudio.com: Owner of "In The Mix" on Youtube, over 100k subscribers
- Influencer website designed and built from scratch with HTML5, Sass, npm, PHP, jQuery

Christieaudio.com: Audio engineer based in Australia
- Freelancer portfolio page created with a heavily customized Wordpress theme, custom jQuery audio player and branding created in Photoshop

PROJECTS

Luccipaula.github.io: my personal portfolio page
- GitHub Page designed/built from scratch with HTML5, Sass, npm and jQuery

Twitch Status Viewer: check/search for your favorite streamers' online or offline status
- Web app developed with HTML, CSS Grid, jQuery, JSON (Twitch API)

Local Weather App: view weather in your location/search for weather in other locations
- Web app developed with Bootstrap, jQuery, JSON (Google Maps API, Dark Sky API)

EDUCATION

August 2018: "Advanced CSS and Sass: Flexbox, Grid, Animations and More" Course, Udemy
April 2017 - Present: Responsive Web Design, Javascript Algorithms And Data Structures, Front End Libraries Curricula, freeCodeCamp
September 2014 - May 2016: Various online Computer Programming and Business courses, Santa Monica College
